You can use colored pencils over areas covered with markers to smooth them out or shade them. White gel pens are great for drawing over dark colors and glittery gel pens make sparkly accents. Be sure and test your combinations of different media on scrap paper to make sure you like the effect before you apply them on your page!

The image features a complex, symmetrical mandala design. The central text 'Enjoy the Ride' is rendered in a bold, rounded, sans-serif font. The background consists of multiple concentric layers of geometric shapes, including diamonds, squares, and triangles, creating a rich, textured effect. The entire design is enclosed within a square border composed of repeating geometric motifs.
